Job Opening  
**Program Manager - Full-Time**  
The Mountain Center  
**NM Genders and Sexualities Alliance (GSA) Network Program**

The Mountain Center is an experiential and behavioral health resource center that provides unique opportunities for people to overcome self-limiting beliefs and transform their lives through wilderness and personal discovery experiences. These experiences include low and high ropes course elements, rock climbing, hiking, overnight camps and retreats, and day training events provided with a trauma-informed, client-centered approach.

Our [Experiential Adventure Resiliency Model](#) incorporates elements of adventure, education and challenge to help participants break through self-limiting beliefs, discover their potential, and build positive self-identity and resiliency. This unique model guides individuals to:

- Develop self-esteem, self-confidence, and self-awareness
- Learn positive values
- Develop better social skills and relationships
- Facilitate positive changes in communities

The Mountain Center focuses on building strengths rather than identifying weaknesses. We are passionate about offering services for and reaching out to those in our community who are in need of behavioral health support to facilitate self-efficacy. Among those we serve are LGBTQ+ communities, youth involved in the judicial system, Indigenous populations, and survivors of trauma. We partner with community and government agencies, tribal communities, and non-profits to formulate collaborative strategies to deliver positive outcomes and outreach to under-served individuals.
